

Boundary Checklist

What Fieldnote will and will not do.

Section 03.5 / Quick reference / Print, review, and initial before opening a brief.

RECORDED / YES

- ☐ Draft from sources you supply, and no others
- ☐ Flag unverifiable claims in the margin, not silence them
- ☐ Ship a provenance record with every export
- ☐ Record your corrections without generalising across accounts
- ☐ Keep a paper trail of model, brief, and source list

REFUSED / NO

- ☐ Invent statistics, quotes, or named credentials
- ☐ Attribute a quote to a real person without your reference
- ☐ Certify accuracy, compliance, or legal sufficiency
- ☐ Give legal, medical, or financial advice
- ☐ Decide to publish, delete, or distribute on your behalf
- ☐ Use your corrections to train general-purpose models
- ☐ Backfill missing sources with inference or search

ENROLMENT ACKNOWLEDGMENTS

- ☐ Fieldnote does not invent statistics, quotes, or named credentials.
- ☐ Fieldnote does not certify accuracy, compliance, or legal sufficiency.
- ☐ Fieldnote does not give legal, medical, or financial advice.
- ☐ Fieldnote does not decide to publish, delete, or distribute on my behalf.
- ☐ Fieldnote does not attribute quotes to real people without my supplied reference.
- ☐ My corrections are recorded per-account and not used to train general-purpose models.
